Subject: RE: Region 4 Contacts re Chemours and Associated Information (ENFORCEMENT CONFIDENTIAL)

Thanks Ken

This is very helpful.

I think your goals are very consistent with ours. We want to be responsive to Regional and State needs regarding the PFAS air issues, providing emissions measurement (sampling and analytical) guidance and support, where possible, while also seeking to learn as much as we can about the associated manufacturing processes. An underlying objective is to better understand the types of PFAS present in these processes so that appropriate measurement techniques can be developed and, where possible, evaluated.

Our group consists of a variety of researchers from [REDACTED]

[REDACTED]
testing.

For today's discussions, [REDACTED]
convey our expertise and [REDACTED]

To follow in your format, here is a list of the EPA folks and their interests: I know I'm leaving some folks out and probably have some information wrong, but we'll provide a more detailed listing at a later time. I just wanted you to have an idea of who you all will be interacting with later this morning.

[REDACTED] the various measurement and communication activities

[REDACTED]
Sorry for getting this out so late, but I decided getting something out would be helpful. That and getting the others that are participating up to speed.

Jeff
